## Dover Drive, Point Of View

## **VERSE**

You may not like the way I voice my feelings But no one's telling you to listen Maybe I don't have to be so audible Cuz I don't always have the nicest things to say

## **CHORUS**

I'm just letting you know
I'm free to my opinions
I'll think what I wanna think
You don't need to interfere
I'm just letting you know
I don't care what you say
And I'm not blaming you for anything
We all have our points of view
Yours just isn't very clear

## **BRIDGE**

You Don't Know What you're talking about (repeat x3)
