

Dover Drive, Wake Up Call

VERSE 1

So what's up with you
Can't you see you're not always gonna be
The center of attention, especially mine
I know you think you're way too fine for me
And in your own mind I guess you are
But you're so narrow minded and shallow
So blinded, you're so low

CHORUS

I don't know how you ever got this way
(either way) you think you're queen for a day, everyday
(not today) I hope you know you're about to make me sick

VERSE 2

I hate to break it to you
You're not God's gift to the opposite sex
Snap out of it and quit lying to yourself
You're really starting to get on my nerves
Pretty soon you're gonna learn your lesson
You're so conceited and jealous
So starved for attention

CHORUS 2

I don't know how you ever got this way
(either way) You think you're queen for a day, everyday
(not today) I hope you know that you're about to make me sick
You think you're always gonna get your way
(not today) So listen up to what I have to say
(go away) You better open your eyes before you trip.
