

Dover, Four Graves

I answered to all their stupid questions
I wish that I could turn to dust
you know that i'm just the kind
that never ever calls back
i'm the one that'll stay forever.

Sorry , I didn't show up gentlemen
I was in the phone with my friend death
I just wanna be found
very close to their house
I stole the key and I feel really proud
I will stay forever.

-Chorus
Monday's become my fave day
I should do my hair
I will reign again
i'll be crowned to be the great queen of shame
I should iron my dress
and make up my face
I will stay forever.
---End Chorus

I laid on the floor
'till they're gone
then moved back
and took your bones
I love you even more
i need a new place for your soul.

-Chorus

I pissed on their graves
and I bet it still smells.
