

# Dover, Her Bed Star

## HER BED STAR

How can you sleep? you're always open,  
How can you sleep? you're always open,open  
How can you sleep? you're always open,  
How can you sleep? you're always open,open

Come back here,Come back here,  
someday you will pay for what you made, you took her away  
I wanna see her face, to see her face,  
I wanna make her back, to make her bed

How can you sleep? you're always open,  
How can you sleep? you're always open,open  
How can you sleep? you're always open,  
How can you sleep? you're always open,open

Come back here,Come back here,  
someday you will pay for what you made, you took her away  
I wanna see her face, to see her face,  
I wanna make her back, to make her bed

Come back here,Come back here,  
someday you will pay for what you made, you took her away  
I wanna see her face, to see her face,  
I wanna make her back, to make her bed  
How can you sleep? you're always open,  
How can you sleep? you're always open,open
