

Dover, I Hate Everybody

I hate everybody else
Everybody but my friend
And he said:
It's just a bad job
And i'm glad i'm done

It's unbelievable pain
From everyone but my friend
And he said:
It's just a bad job
And i'm glad i'm done

Well, you know the leaves are falling
And the winter is back
and they say
I will never survive the raining
I'm so sick of myself

Now the teacher's gone
Didn't fill me up with their sorrow
I'm above and they're below
I don't need their insecurity
I have plenty of my own
Don't get any closer
I'm alergic to love
