

# Dover, Surrender

Change, change...  
Change your plans  
I never knew you got so sad  
I wanted just to lose some flesh  
You better don't reduce yourself

Bigger love = sadder end  
I never knew you got so mad  
I wanted just to lose some flesh  
Don't do it all for someone else

Lose the boyfriend  
Get a roommate  
Play guitar as loud as you can

Can you play that song for me  
Only that one, not the others  
Long ago i used to believe  
I was not / just like everybody  
Can you play that song for me  
Only that one, not the others  
Play it please!

Help me break the window  
Look for dessert days  
You just left me hollow  
Now i just don't believe
