

Down Below, Lovely Places

Without you...

Without you...

There is a place in your heart

Just a little place

There is a place in your heart

Where I can show my face

There is a place in your heart

Where I can come to you

Oh...

Whatever I have done

Wherever I have gone

'cause you and me, you make me feel,

There's a reason in this world

And without you I am nothing

And that hurts

You and me, You make me feel

There's a reason in this world

And without you I am nothing

And that hurts

I'm noting and that hurts

There is a place in your heart

Where I can talk to you

There is a place in your heart

Where I feel I belong to you

There is a place in your heart

Where I don't feel alone

Oh...

Whatever I have done

Whatever I have gone

You are

You are the reason

You and me, you make me feel

There's a reason in this world

And without you I am nothing

And that hurts

You and me you make me feel

There's a reason in this world

And without you I am nothing

and that hurts...
