

Down By Law, Best Friends

Wake up in time to get you call
Make sure this time we got it all

My best friend's always near me, cheers me, looking after me
I need her and it's clear to see
My best friend's always near me
[Enjoy this as long as we should be]
With only her my life it could be

My friend knows why
When I've lost track
We'll never cry
We'll always laugh
For a stop and go
And I know we would
My friend's always by my side

And it's so nice to be near her
[Or just to come to hear her]

These days are looking ofently good
We made it and I know we would

Chorus

Hold on to me, hold on to me...
