

# Down By Law, Haircuts

pearl jam clones are everywhere  
f\*\*k that shit, go cut your f\*\*king hair  
Seattle sound is all around  
but where's the huevos in that sound  
go to the Whisky, see a band  
just all an 'L' and you've got bland  
all those bands just sound the same  
and they all look so f\*\*king lame  
and I don't want to hear it  
everybody's trying to make it  
heard it all a million times  
grab the brass ring before it falls down  
wish they'd all just go away  
pearl jam clones are everywhere  
f\*\*k that shit, go cut your f\*\*king hair  
not one word original  
not one word original  
and then they all fall down  
they all go down  
grab the brass ring  
find the pot of gold
