

# Down By Law, Revolution Compromised

the revolution will be compromised  
if we don't move now  
1,000 mental road signs  
go blurring by  
telling us that this is the time  
this is the time  
the revolution will be compromised  
if we don't move now  
see the kids out on the street  
so much wasted energy  
if they had a leader  
what an army they would be  
but that's not reality  
there is no reason without reason  
complacency to be feared  
why do we get out of bed?  
light a fire in your head  
the revolution has been compromised
