

# Down By Law, Turn Away

turn away just don't let her turn away  
other way just don't look the other way  
and if you'd seen her face  
if you'd seen her  
just a smile that was withering away  
I wanna look but it's gonna be too late  
untouched by another persons fate  
and I don't like that  
turn away just don't let her turn away  
other way just don't look the other way  
oblivious to haze  
too good to turn away  
don't turn away
