

Downhere, Better Way

I'm not alone, I really believe
You never go, You never leave
Here and now, You always stay
I love you could not be said a better way

It's everything You've promised
There's no greater love than this
From prophets until today
A man laying down His life for His friends
Your sacrifice has spoken, You gave everything
And I love you could not be said
A better way

I am forgiven, I clearly see
It's why You came to do all you did for me
Trading earth with heaven, You took my place
I love you could not be said
A better way

Because You redeem, I know what's to come
Everything I could lose here, You've already won
So You have my surrender, with passion obey
I love you could not be said
A better way
