

Downhere, Headed

Anchor up, tow me out of this pit I'm dreading
Turn this vessel's path around
I look above, I'm in love
With the pace you're setting
From this stream we're ocean bound

Chorus

And I know for sure I'm headed straight for the edge
And I know for sure I'm headed straight for the edge
'Cause that's just where You are

I'm the son, you're the King
Makes me royalty now
It's no title without pain
In the end it is well
After storms and beatings
These muddy rivers empty out

Chorus

That's where You are

Chorus

Anchor up, tow me out of this pit I'm dreading
