

# Downhere, Something Heavenly

All the angels see all the angles  
With a view from  
both sides of the line  
If I had not such a blind spot  
Would I have a less difficult time  
Surrendering my ways?  
I would hang on  
every word You say

I'm so far from what I wanna be  
Oh, I really am  
my own worst enemy  
Please don't let me  
get the better of me  
Take this earthly thing  
and make it finally  
Something heavenly,  
I wanna be heavenly

Air is cleaner,  
grass is always greener  
For the crowd of hosts  
up where they are  
If I could visit,  
I'd just contaminate it  
Why so big a place for me  
in your heart  
To leave your glory home  
Just to make a broken man  
your own?

If I try to soar, I will fall for sure  
So let your grace break through  
And lift me up upon it  
to be with You

I'm so far, stay close to me  
I'm so far, stay close to me  
You're making me  
something heavenly  
Gonna be heavenly
