

DQ, From Earth to Earth

I dont want to fight
The creatures of the night
When the fire settles down into a steady burn
The flicker of a light
A tremor out of sight
Were lost in time and Im at loss for words
You are easy to remember, but so hard to forget
Lets stay together
Say forever
Ooh our love is strong
But nothing lasts forever but the earth and sun
Change the weather
Make it better
Come the dawn
Well disappear, but love will carry on
Lifes a lost and found
We barely touch the ground
From earth to earth well come and well return
Im six feet underground
Hell bent and heaven bound
Lets make the best of it and grow from what we learn
Love is easy to remember, but so hard to neglect
Chorus
I am burning in the dirt
Im returning from earth to earth
Wont you help me make my peace
Let my spirit free in a heavenly release
Lets stay together
Say forever
Ooh our love is strong
But nothing lasts forever but the earth and sun
Change the weather
Make it better
Come the dawn
Well disappear, but love will carry on
Well lose ourselves and find where we belong
We will disappear, but love will carry on
