

# DQ, I Dance Alone

Sometimes I feel the emptiness slowly creeping in  
My dreams are endless, but am I spread too thin  
Cause I know they may judge me  
But my life is not a crime  
And Im not a victim of my time  
I dance alone  
In the colors of the rainbow  
Only sky and clouds below  
From Beijing to San Francisco  
I want to set the tone  
Go against the flow and be the best the world has ever known  
Stand on my own  
And dance alone  
I dance alone  
I dance alone  
If only everyone would find paradise within  
Not search for validation, be comfortable in their own skin  
Though Im alone Im just perfect  
And who would have known  
What this Kingdom needs is a Queen on the throne  
Wholl dance alone  
In the colors of the rainbow  
Only sky and clouds below  
From Beijing to San Francisco  
I want to set the tone  
Go against the flow and be the best the world has ever known  
Stand on my own  
And dance alone  
Dance alone  
I dance alone  
When theres a sea behind your eyes  
Ill keep you company  
But no one else can cry the tears you have to cry  
Dont be afraid to try  
To see things differently  
Cause in a while youll smile and be free  
To dance alone  
In the colors of the rainbow  
Only sky and clouds below  
From Beijing to San Francisco  
We need to set the tone  
Go against the flow and be the best the world has ever known  
Stand on your own  
And dance alone  
Dance alone  
We all dance alone
