

DQ, Love is Everything

You say love
Its just like any other drug
You say a heart
Its just another body part
And chemistry is nothing but a memory
And you and me
Is nothing but a fantasy
Oh oh oh
You dont know
What youre saying
You dont know
What youre playing and
If you go
Just remember that
Life is short
Love is everything
Love is everything
Love is everything
I say love
Its nothing like a groggy drug
I say a heart
Its more than just a body part
I say love
Its everything were living for
You say stop
And now you wanna break it up
Chorus
You cant tame it
You cant fake it
You cant break it
Love is everything
