

Dr. Feelgood, All My Love

(wilko johnson)

Well well well
I thought I heard it raining
All my love trouble in my mind
Lay awake all night
Till the morning light came shining through the blind

Well well well
How long did money hold you
If all my love can't keep you by my side
Everything you need lying at your feet
And you won't be satisfied

- harmonica break -

Big bell ring
Somebody gotta go now
Rolling slow drivers dressed in black
As they passin' through start to think of you
And all my love comes back

All my love
Gone but not forgotten
Hate you now when I think of what you've done
I can't fool myself using someone else
You're the only one
