

Dr. Feelgood, Best In The World

(Nick Lowe)

Some say you're a scrubber
Some say you're contagious too
I don't care when they shoot the air
From where I'm standing you're beautiful
Some say that you're ugly
Some say that you're past it too
I don't mind when they shoot that line
Cause the oldest fiddle plays the sweetest tune

I want you best in the world
I want you best in the world
I want you best in the world
I want you best in the world

Some say you're a danger
Some say you're a teaser too
Sticks and stones will never break your bones
From where I'm standing you're beautiful

I want you best in the world
I want you best in the world
I want you best in the world
I want you best in the world

They say that beauty is only skin deep
And they say it's in the eye of the beholder
I don't know I just can't agree
Cause all I know is when I see you gotta hold ya

- Guitar Break -

They say that beauty is only skin deep
And they say it's in the eye of the beholder
I don't know I just can't agree
Cause all I know is when I see you gotta hold ya

Some say that you're ugly
Some say that you're past it too
I don't mind when they shoot that line
Cause the oldest fiddle plays the sweetest tune

I want you best in the world
I want you best in the world
I want you best in the world
I want you best in the world
(repeat to fade)
