

Dr. Feelgood, Don't Worry Baby

(rosas/perez/burnett)

Standin' there by the window
Starin' out of the night
You got so many troubles
Of a nervous mind
But don't worry baby
S'gonna work out fine

You hear the sound of footsteps
Steal across the floor
You pick the receiver
You don't know what for
Then you saw a shadow
Steppin through the door

Why don't worry baby
What the world may bring
Why don't worry baby
It won't change a thing
Cause life is a fight
And then you die

Standin' there by the window
Starin' out of the night
See your lover leaning
Against the old street light
But don't worry baby
S'gonna be alright

He was a tossin' and turnin'
And he just couldn't sleep
Said you shouldn't bother
It was just a dream
So where was he goin'
Headin' down the street

Why don't worry baby
What the world may bring
Why don't worry baby
It won't change a thing
Because life is a fight
And then you die
