

# Dr. Feelgood, Hurricane

(Dave Laredo)

Lookin' at the blood red sky (Alone in my window)  
Heard another distant cry (Alone in my window)  
Wind up and I go inside (Alone in my window)  
I gotta have another try  
Rushin' by the blood red tide (Alone in my window)  
Can't swallow and my mouth is dry (Alone in my window)  
I just can't grip another line (Alone in my window)  
Watchin' my time pass me by - In my window say yeah

When the hurricane comes to town  
When the hurricane comes to town  
When the hurricane comes...

I hollered don't ask me why (Alone in my window)  
I was supposed to get another try (Alone in my window)  
And no-one told me how to ride (Alone in my window)  
It's funny how it all slips by - In my window say yeah

When the hurricane comes to town  
When the hurricane comes to town  
When the hurricane comes...

- Guitar Solo -

Comin' back here in a hot July (Alone in my window)  
With my net I'm huntin' dragonflies (Alone in my window)  
Mama's callin', gotta go inside (Alone in my window)  
Sunsettin' in the golden sky - In my window say yeah

When the hurricane comes to town  
When the hurricane comes to town  
When the hurricane comes to town  
When the hurricane comes...

- Guitar Outro -
