Dr. Feelgood, I Thought I Had It Made

(lee brilleaux/gypie mayo)

Sitting in a downtown discotheque Saw a cute little girl that stole my breath away Line of guys that had the eyes on her To my surprise she said 'i beg you sir'

I stay I thought I had it made

Sat at a table for a couple of drinks Moving closer and she kissed my neck That's when I knew that I was in with a chance Records were a playing and she asked for a dance

They played I thought I had it made

- guitar break -

We were a swinging to the moody blues Looked into my eyes I thought I blew a fuse Music stopped playing the lights went out Dropped my drink when I heard them shout

It's a raid I thought I had it made

Hey everybody take a look at me Didn't come to until a quarter past three Got no money couldn't put up the bail Judge said 'son, I'm gonna keep you in jail.'

I stay I thought I had it made

Thought I had it I thought I had it made (repeat to fade)
