

# Dr. Feelgood, Milk And Alcohol

White boy in town  
Big black, blue sound  
Night club, I paid in  
I got a stamp on my skin

Main attraction dead on his feet  
Black man rhythm with a white boy beat  
They got him on milk and alcohol  
They got him on milk and alcohol

Stay put I wanna go  
Hard work, bad show  
More liquor, it don't help  
He's gonna die, it breaks my heart

I decided eventually  
This ain't doing a thing for me  
They got him on milk and alcohol

They got him on milk and alcohol

They got him on milk and alcohol  
They got him on milk and alcohol  
They got him on milk and alcohol  
They got him on milk and alcohol

Got up, I walked out  
To the car, start it up  
Feel bad, sad night  
I never saw a red light

Sirens were a screamin' all around  
I pulled on over and I shut her down  
A black cop gave me a shove with his gun  
Said up against the wall and don't make a run  
They got me on milk and alcohol  
They got me on milk and alcohol
