

Dr. Feelgood, Murder In The 1st Degree

You was mean to me
You was so mean to me
You gonna be sorry
Oh you mistreated me
Broke my heart
The judge found never cruelty
I call it murder in the first degree

You made a fool of me
Yeah you made a fool of me, baby
Everybody knew it
They all knew but me
Broke my heart

The judge found never cruelty
But I call it murder in the first degree

Blue and lonely
So blue and lonely
Can't stop this pain
Deep down in my heart
And it's killing me

Broke my heart
The judge found never cruelty
But I call it murder in the first degree
Oh, I call it murder
Oh, oh, lord have mercy now
