

Dr. Feelgood, Put Him Out Of Your Mind

Saw you walking down the street with your brand new bo
Now's there's something you might know
It's a dirty dog don't mean no good and leave you out in the cold
Lies and cheats
That's what I've been told

You're getting in too deep
Love before you leave
Put him out of your mind
Put him out of your mind

Oh I could do so much for you and always be around
I'll treat you right not like that earl crown
Cause he is the one who make you blind, leading you a stray
But I'm the one to help you find the way

You're getting in too deep
Love before you leave
Put him out of your mind
Put him out of your mind

Now all is fair in love and war so the people say
Keep you cool he only wants to play
You better watch out be on your guard
Or get your fingers burned
What a spill of girls who never learned

You're getting in too deep
Love before you leave
Put him out of your mind
Put him out of your mind
