

# Dr. Feelgood, Quit While You're Behind

(Will Birch/Phil Mitchell)

You had a reputation  
Talk can be so unkind  
You loved above your station  
It messed up your mind  
Take this information  
And quit while you're behind

Kicked out of his bed  
Now you might go blind  
His line is dead  
And your face is lined  
You'll only get ahead  
If you quit while you're behind

You got to get out while you can and run  
You got to pay the price, once you've had your fun  
Once you've had your fun yeah

- Harmonica Break -

You lost your inhibitions  
Now they're hard to find  
You made the late editions  
In the daily grind  
Forget your superstitions  
And quit while you're behind
