Dr. Feelgood, Things Get Better

(Eddie Floyd/Steve Cropper)

You can bring joy Like I never had I'm gonna' be right near you As long as I can That's why

I can be lonely But you can be found And I ain't lonely baby You're always around That's why

Things get better baby When I'm with you Things get better baby When I'm with you

- Guitar Solo -

I can't live without you I know that you're mine I can't lose this feeling You stay on my mind That's why

Things get better baby When I'm with you Things get better baby When I'm with you (Repeat to fade)
