

Dr. Feelgood, Time And The Devil

Hard time going down
I just hangin' 'round
Sweet thing good love
Thats all I'm thinking of

Time and the devil is gonna bring me everything I need
Well I don't have to worry, oh no
About the love or the money, oh no
Time and the devil is gonna bring it all home to me

No woman no cash
No place to crash
Clock strike midnight
I feel quite alright

Time and the devil is gonna bring me everything I need

Well I don't have to worry, oh no
About the love or the money, oh no
Time and the devil is gonna bring it all home to me

What's this I see
Looking over at me
Just like I said
Got my breakfast brought to the bed

Time and the devil is gonna bring me everything I need
Well I don't have to worry, oh no
About the love or the money, oh no
Time and the devil is gonna bring it all home to me
