

Dr. Feelgood, Walking On The Edge

(wilko johnson)

Started out feeling good
Some other moment in another neighbourhood
Can't remember what went wrong
But I know I been some places and I know I stayed too long

Now i'm
Walking on the edge
Walking on the edge
Walking on the edge
Again...

Every turning that I take
There's a face in every window, watching every move I make
Keep your cool it can't be far
Take a look around you and you find out where you are

Walking on the edge
Walking on the edge
Walking on the edge
Again...

All along the wires overloaded with the static
Hear the engines gunning in the middle of the traffic
Caught up in the jam again
It really starts to get insane
Just waitin for the light to change

- guitar break -

All along the wires overloaded with the static
Hear the engines gunning in the middle of the traffic
Caught up in the jam again
It really starts to get insane
Just waitin for the light to change

Havin trouble getting through
Sometimes I wonder why I do the things I do
No need to worry it's ok
That ain't panic in the city it's another working day

Walking on the edge
Walking on the edge
Walking on the edge
Again...
