

Dr. Feelgood, You Got Me

(John Brim)

You got me where you want me
Do with me what you please
You got me where you want me
Do with me what you please
Don't go away and leave me
Leave me in misery

You say you gonna leave
Baby, like you did before
You say you gonna leave
Baby, like you did before
You know I got a weak heart
I can't stand that no more

I come home in the evening
Babe, I look to find you gone
I come home in the evening
Babe, I look to find you gone
You bad to keep me waiting
Baby, all day long

- Harp and Guitar Solo -

You got a brandnew lover
Baby, and lives cross town
You got a brandnew lover
Baby, and lives cross town
Now if you got to keep him
Please don't put me down

Tell me, tell me baby
Baby what's wrong with you
Tell me, tell me baby
Baby what's wrong with you
Now haven't I been good to you
And give you everything you ask me
