

# Dr. Hook, Feels Good

(P. Overstreet/E. Stevens)

I was looking hard for love then I found you  
And when I found you I just couldn't help but fall  
You wrapped your arms around me  
Ran your magic up and down me, now I can finally say I've got it all

But I can't say it came easy but it's easy since it came  
Now I can finally just lay back and smile  
And I realise it may not last forever but I sure do like this style  
'Cause it feels good having it real good for a while

I tried so hard I feel like I deserve it  
To have someone I need as much as you  
The feel for love you taught me, it comes each time you want me  
And leaves my body soft when you are through

But I can't say it came easy but it's easy since it came  
Now I can finally just lay back and smile  
And I realise it may not last forever but I sure do like this style  
'Cause it feels good having it real good for a while

No I can't say it came easy but it's easy since it came  
Now I can finally just lay back and smile  
And I realise it may not last forever but I sure do like this style  
'Cause it feels good having it real good for a while

Yes it feels good having it real good  
Yes it feels good having it real good  
Yes it feels good having it real good
