

# Dr. Hook, Love You Now

(D. locorriere/R. Smarr)

I don't wanna wait until some starry night  
Baby, let me love you now  
I don't wanna wonder what's wrong or right  
I just wanna love you now  
You know that I've been patient  
Are you feeling my frustration?

You don't have to save it for a rainy day  
Baby, let me love you now  
Don't know how I'm gonna say it any other way  
Gotta get through some how  
I hope that I can last, girl  
Only moving fast as you'll allow  
Baby, let me love you now

Say that we must leave it for another time  
If you're looking for a way to break  
This heart of mine  
We could be so good together  
If you'd only let me show you how  
Baby, let me love you now
