

# Dr. Hook, Penicillin Penny

(Shel Silverstein)

Penicillin Penny she's the queen of the sunset strip  
If she ever gives you any then you better see your doctor real quick  
From the back seat of Cadillac cars, to the floor of men's room bars  
She's Penicillin Penny and her future's written in the stars

She's Penicillin Penny and ever since the day she came and came  
They say she's had so many, she gives 'em all numbers not names  
I always call her Hun' but she calls me 1001  
And Penicillin Penny starts to boogie when the day is done

She's Penicillin Penny and if you ever see her passin' through  
Better run into your house before she stops and lays a little on you  
If you ever let her in your door it takes 20 million units  
Or more to cure the love that Penicillin Penny's gonna lay on you
