

# Dr. Hook & The Medicine Show, Body Talking

(H. Smith/D. Locorriere)

You walked into the room  
I smelt your perfume  
And I could see your body talkin'  
Got up and grabbed the chance  
C'mon we're gonna dance  
'Cause I can see your body talkin'  
You never said a thing  
But baby just the same  
The things you weren't sayin'  
Kept poundin' in my brain  
Right there on the floor  
I saw you wanted more  
'Cause I could see your body talkin'  
I feel every quiver  
I feel every shiver  
Action speaks louder than words  
I know what your sayin'  
When your body's swayin'  
Girl you got a way to make your feelings heard  
You never said a thing  
But baby just the same  
The things you weren't sayin'  
Kept poundin' in my brain  
Right there on the floor  
You knew I wanted more  
And I could see your body talkin'  
I can feel your motion  
Rockin' like the ocean  
Action speaks louder than words  
I know what your sayin'  
When your body's playin'  
Girl you got a way to make your feelings heard  
Right there on the floor  
You knew I wanted more  
And I could see your body talkin'  
(I can feel it)  
I feel every shiver  
I feel every quiver  
I can feel your body talkin'  
(I can feel it)  
I can feel your heat now  
I can feel your beat now  
I can feel your body talkin'  
I can feel your body talkin'  
I can see your body  
I can feel your body  
Talkin', talkin'  
(I can feel it)  
I can feel your body  
I can see your body  
I can feel your body  
Talkin', talkin'  
(I can feel it)
