

Dr. Hook & The Medicine Show, Devil's Daughter

(R. Shulman/D. Goodman/M. Paul/B. Reneau)

Her flaming eyes, cast an evil spell

Her burning lips are the gates to hell

Conceived out of fire

Her daddy named her Desire

Ain't no water, cool the fire of the Devil's daughter

Heaven help the fool who dares to believe her

She'll torture your mind 'til you're burnin' alive with fever

A black widow spider, looking for her prey

In smokey places, with passions play

She lays for a man

She leaves him with a fiery brand

Ain't no water, cool the fire of the Devil's daughter

Heaven help the fool who dares to believe her

She'll torture your mind 'til you're burnin' alive with fever

Hers forever if she gets control

She feeds your love to her hungry soul

She'll drain you she'll bleed you 'til she no longer needs you

Ain't no water, cool the fire of the Devil's daughter
