

# Dr. Hook & The Medicine Show, Fire In The Night

(Carr/Henley)

Fiery Lady, silky sassy  
Dark skin lassie, won't you lay me down  
Be my soulful feel my empty  
How you tempt me woman turn me round  
She's a fire in the night  
Blind you when the lights go down  
She's a fire in the night  
Get me up woman let me down  
Hold me tightly, take it lightly  
Don't try to fight me 'til you got me down  
Cold and lonely, one night only  
But it ain't lonely when the lights go down  
She's a fire in the night  
Blind you when the lights go down  
She's a fire in the night  
Get me up woman let me down  
Acting crazy, feelin' lazy  
Her eyes are hazy and her hair is down  
Got the feelin', what you're dealin'  
Surely healin' me I'm comin' round  
She's a fire in the night  
Blind you when the lights go down  
She's a fire in the night  
Get me up woman let me down  
She's a fire in the night  
Blind you when the lights go down  
She's a fire in the night  
Get me up woman let me down.....
