

# Dr. Hook & The Medicine Show, Loveline

(E. Stevens/E. Rabbitt/D. Malloy)

If you ever need me, call me on your phone line  
You've got my number, if you ever want me I'm your lifeline  
And if you're ever lonely, I'm your loveline  
If you ever feel sad, need someone to hold you  
When no-one knows you or understands you, I do  
'Cause no-one means as much girl as you do  
Take your time it's just my heart you're breaking  
I don't mind, though my whole world is shaking  
I'll be fine

I'm sitting by my window, wondering where you are now  
If ever it should rain just remember there's a rainbow  
'Cause someone thinks about you, wherever you go  
Take your time it's just my heart you're breaking  
I don't mind, though my whole world is shaking  
I'll be fine, I'm your lifeline

If you ever need me, call me on your phone line  
You've got my number, if you ever want me I'm your lifeline  
And if you're ever lonely, I'm your loveline  
Take your time it's just my heart you're breaking  
I don't mind, though my whole world is shaking  
I'll be fine, baby I'm your loveline

Baby I'm your loveline

Oooh, Baby I'm your lifeline

Baby I'm your loveline

Oooh, Baby I'm your lifeline.....
