

Dr. Hook & The Medicine Show, Storms Never Last

(J. Colter)

Storms never last do they babe
Bad times all pass with the wind
Your hand in mine stills the thunder
And you make the sun wanna shine
You followed me down so many roads, babe
I picked wild flowers and sung you soft sad songs
And every road we took lord knows our search was for the truth
And the clouds brewin' now won't be the last
But storms never last do they babe
Bad times all pass with the wind
Your hand in mine stills the thunder
And you make the sun wanna shine
Storms never last do they babe
Bad times all pass with the wind
Your hand in mine stills the thunder
And you make the sun wanna shine
Storms never last do they babe
Bad times all pass with the wind
Your hand in mine stills the thunder
And you make the sun wanna shine
