

# Dr. Hook & The Medicine Show, That Didn't Hurt

(R. Byrne/T. Brasfield)

Come on over here my brand new baby  
You look so alone and the night's so fine  
Won't you take your trembling lips and kiss me one more time  
Yeah, you're gonna do just fine  
Oh that didn't hurt too bad, now did it  
That shouldn't make you sad  
'Cause it's only love you're running from  
That didn't hurt too bad now did it  
I'm gonna handle you like a baby  
I'm gonna love you like you never knew  
It'll be everything and more than you ever thought it could  
You're gonna be so good  
Oh that didn't hurt too bad, now did it  
That shouldn't make you sad  
'Cause it's only love you're running from  
That didn't hurt too bad now did it  
Wasn't it everything and more than you ever thought it could be  
Baby you were so good  
Oh that didn't hurt too bad, now did it  
That shouldn't make you sad  
'Cause it's only love you're running from  
That didn't hurt too bad now did it
