

# Dr. Hook, You Make My Pants Wanna Get Up And

You make my pants wanna get up and dance  
You make my face wanna grin  
You make my knees wanna kneel down say please  
Honey won't you kiss me again  
You make my pants wanna get up and dance  
You make my face wanna grin  
You make my knees wanna kneel down say please  
Honey won't you kiss me again  
I was a lost and lonely man  
Now I get through life the best I can  
'Til the day I laid my eye on you  
That day I decided what I had to do  
You make my pants wanna get up and dance  
You make my face wanna grin  
You make my knees wanna kneel down say please  
Honey won't you kiss me again  
Start the music strike up the band  
I never done the boogie but I believe I can  
Never met a girl half as sweet as you  
Nobody's ever moved half the moves you do  
You make my pants wanna get up and dance  
You make my face wanna grin  
You make my knees wanna kneel down say please  
Honey won't you kiss me again  
(Repeat)
