

Dr. Octagon, Blue Flowers

"Let me show you somethin" (2X)

Dr. Octagon, paramedic fetus of the East
with priests, I'm from the Church of the Operating Room
with the strike support, scalpels since the holocaust
I do indeed in greed, explore meet the patients
Back to brooms with the nurse with the voodoo curse
Holding up office lights, standing at huge heights
Back and forth, left wing swing to North
East and South with blood pouring down your mouth
I come prepared with the white suit and stethoscope
Listen to your heartbeat, delete beep beep BEEP
Your insurance is high, but my price is cheap
Look at the land...
