

Dr. Sin, Through My Window

(Dr. Sin)

Looking through my window
I see a shining star
It seems like it's telling a story to me
So hard to stay without you baby
In this empty room still see your face
in the dark
Nothing really matters
Cause babe now you're gone
Nothing really matters
Only you...
Sitting here playing my old guitar
Tryin' to sing what I'm feeling inside
You let hard times tear us apart
I'm not that strong
But I just carry on
Nothing really matters
Cause babe now you're gone
Nothing really matters
Only you...
How long will we be wasting our time
Remember the night you lay by my side
