

# Dr. Steel, The Dr. Steel Show

It's the Dr. Steel show!

Deep underground with my robots  
Built 'em out of toy parts  
Build an army and war starts  
UFOs that throw a radium glow  
Into your skull it sinks  
Turn your brains into Shrinky Dinks

What fun, I built a Ronald McRay gun  
Now this little puppet's about to get rough  
I'm a man with a plan and a mechanical band  
Who can't do a little, cause he can't do enough.

And as my armies rise  
They take to land and sky  
You'll find the toys uprising inside

(repeat)

Bali Hai may call you  
Hidden Isle of a death ray  
This is my secret island  
Go away, go away

Into the valleys and seas  
I send my colossal machines  
Hell-bent on destruction  
It's all a production for me.

Go!

And as my armies rise  
They take to land and sky  
You'll find the toys uprising inside

(repeat x2)

It's unavoidable  
We've sealed and locked the doors  
So just sit back, enjoy the show.
