

# Draconian, Serenade Of Sorrow

[Lucifer:]

And the fires burn'd inside my eye's  
as ye fall's ascending like a moment o' joy.  
My thorns where sown in ye light o' Day,  
and the winds they blew  
until my winds, they blew no more.  
I scream'd out into the dawn!

[Spirit of Night:]

His thorns were spawned from the grasp o' God,  
and the pain it grew  
but holiness grew no more.  
Grievance; fro' the horizon she comes  
I wonder if I could stay in His world,  
cause sooner or later this pain must end!  
My life it cries to be free,  
but legions of stars the stars suffers with me!  
Grievance:  
Pain must end!  
His life cries, but soon to be free  
Thou art the star o' Venus Oh Seraphim!  
The Holy Spirit:  
Thou must obey thy father, thy God!  
Bow down before his eyes before his very eye's!

[Lucifer:]

My God father' hear us cry!  
Tell me why! Thou wilt die!!!

[Astaroth:]

Oh, Enslaver of Souls;  
Thou can not be our father!  
Oh, Avengeful God;  
Thou hast brought us agony!

[Lucifer:]

Into heav'n our sorrow  
ye beautiful moment o' tragedy  
Falling fro' the lies of His perfect world'.  
Takest us away, so far away  
here is nothing but pain.  
Farewell now as we enter our darkness  
and we love her, the realization!  
Behold our salvation!  
Sorrow  
so beautiful  
They are falling  
falling!  
God is smiling  
smiling!  
Salvation comes but pain  
still grows
