

# Drag-On, Life Is Short

[Verse 1]

All I do is speak the truth so don't judge me by my lies  
I weigh about a buck 40 don't judge me by my size  
Our glocks is like Michael J. Fox it's +Family Ties+  
Cuz it'll make a family cry, why  
A lot of questions just ain't answered problems ain't resolved  
Like if Drag really a gang member, or just involved  
Y'all can be the boss of the bosses I'll be the cause of the causes  
I rob from the rich and give to the less fortunate  
well I buy thousand whips and in your raps I floss this shit  
I buy thousand kicks and give to the young orphanage  
When I was young I was a soft kid 'till I snap  
and they couldn't get me off a kid cuz he sold my mom's crack  
In fact, I caught a case beyond that I couldn't face my moms  
crack addiction cuz I was way beyond that but I face facts  
I got busted over the left side of my face my face back  
But I had to fix that

[Chorus x2]

Life is short, time flies  
It ain't our fault, blames aside  
It ain't the licks, it ain't the eyes  
It's just the way we live or die

[Verse 2]

My blood I had to taste that my wound I had to heal that  
In order to feel that a real life shit and still rap cuz  
My rhymes still here so I done fried a few punks  
My mom still here but she'll die in a few months  
thats real life cancer and doctors ain't got the answer  
I hope yall fellin this cuz I ain't supposed to be tellin y'all this shit  
like I ain't supposed to be sellin yall this shit but this is real life  
like I ain't supposed to be cryin over this shit but I still mind  
Shit just don't feel right but I'm gonna hold on  
Till the hole in my 44 long  
I'm gonna hit the gym and get my swell on  
Sometimes my head gone  
Snd I don't give my pops props cuz he was dead wrong  
Pops was up, you know what, I don't give a fuck  
The only thing I'm happy that you did was bust me out your nuts

[Chorus]

[Verse 3]

But nigga this is real life it makes me clutch my glock real tight  
It makes me wanna fight but I get it off when I write  
so these last few months my moms could live right, in new clothes  
they said she might lose her sight fuck it she saw me blow  
I reminisce sometimes I pull out old 40 year olds  
it gets me stressed so I could smoke up like 40 of those  
sometimes I feel like walkin with a mean bout  
bustin till I see cops snowin till I see slot  
throw on a pair of flip flops take steps to the roof of the ledge  
till my feet stop but I need not, I got a life ahead of me  
I got a wife in back of me, at least I gotta see my seed drop  
Probation got me on a detox, so when I die, bury me next to the weed crops  
so when I'm in heaven I can give weed to Pac and smoke trees with Big L  
Alliyah we miss ya and Pun we have fun wit ya
