

# DragonHarp, Let the Dragon Fly

Go! Run away through the narrow sea  
Quickly against your destiny  
The usurper deer wants you  
you! To kill!

Fate awaits to give you a chance  
running after your glorious dreams  
Come here! And take your choice!  
You! to fight!

Quando il cielo si fa oscuro  
il destino non perdona  
prendi il peso del tuo regno  
vola col tuo drago ancora!

Poor more tears for your sun-and-stars  
but you cannot die for feelings  
run and fly and raise your sword  
fly with your dragon forever!

Mother of dragon

Queen of mighty dragon  
ride the sky and fight with me  
come and bring us your crown  
Queen  
the reign is bleeding

The seven realms are weeping blood  
Throne of swords is a cruel game  
Chaos and death is everywhere  
Here! The death!

The crown is calling his really queen  
last of a royal dynasty  
ride the beast and deal the fate  
you! To free!

Quando il cielo si fa oscuro  
il destino non perdona  
prendi il peso del tuo regno  
vola col tuo drago ancora!

Poor more tears for your sun-and-stars  
but you cannot die for feelings  
run and fly and raise your sword  
fly with your dragon forever!

Queen of mighty dragon  
ride the sky and fight with me
