

# Dragpipe, Seeds Of Change

It's like i never thought that  
I would see the end  
I think i'm too involved  
To follow you again  
And all the things that fly  
Around inside my head  
I'm hoping i can free  
The light that can't pretend  
I was hoping  
You were saying  
I was just like you  
You won't take me  
You won't make me  
Out to be like you  
It's all the time i spent  
I lived inside of you  
And if you lied to me  
Pretend to see it through  
And all the simple things  
That made it all come true  
I'd never bend the rules to be you  
I was hoping  
You were saying  
I was just like you  
You won't take me  
You won't make me  
Out to be like you  
I won't be there if you want me  
Give up the guns  
Give up the drugs  
Give up the ones you need to love  
Give up the rain  
Give up the sun  
Give up the life you need to run  
I was hoping  
You were saying  
I was just like you  
You won't take me  
You won't make me  
Out to be like you  
You won't take me  
You won't make me  
Out to be like you (x2)
