

Drain, Good Good Things

I know a place up in the air
It's not very far, I've been there before
I know a place, cool and warm
Cooling my blood, warming my heart
So come on down and walk with me, and tell me I'm your man
I only want to know a couple of things about you
Where were you when I was in so much trouble with myself
And do you still believe in me like I believe?
I've been thinking good-good things about you
Cool and warm, good-good things about you
If you've been thinking good-good things about me
So cool and warm when you put your arms around me
On my own, I know where to go
Living the lie, in your eyes
I know a place, cool and warm
Cooling my blood, warming my heart
So come on down and walk with me, and tell me I'm your man
Let's see if I can get it right with you this time around
I'm not afraid of losing you my little girl
But do you still believe in me like I believe?
I've been thinking good-good things about you
Cool and warm, good-good things about you
If you've been thinking good-good things about me
So cool and warm when you put your arms around me
