

# Drama Escort, I Can't Fly

Crashing like an airplane  
That got caught in the storm  
Looking for a shelter  
Coz I need to keep warm

My heart  
My heart's growing too cold

Burning like the sun  
And falling fast  
Like the rain  
I need to find some medicine  
To keep my mind sane

My heart  
My heart's growing too cold

My heart  
My heart's growing too cold

I was ontop of the world  
I thought I could stay up there

But I can't fly at all  
No, I can't fly at all  
I just give up and fall  
Coz I can't fly at all

I'm smiling like a clown  
Secretly sad inside  
But I'll keep on laughing  
Coz I still got my pride

My heart  
My heart's growing too cold

Stay up late with me tonight  
And we'll talk about  
Everything we've ever been  
And how we shouldn't doubt...

My heart  
My heart's growing too cold

My heart  
My heart's always been too cold
