

Draper, Home (ft. Abi Ocia)

Stuff that never last long
Fallen, but I'm too strong
To pick up my feet, walk through this heat
To find some trace to you
Times that I felt alone
And every time I'm pushing stone
Can't you see the pattern?
Chasing some values to find a place called "Home"?
To find a place called "Home"?
Called "Home"

The stuff that never last long
Feeling like I've gone wrong
Show my emotions, I've been open
To find some escape from you
Every time I hit strong
Showing that my pride's gone
Five foot devotion in the ocean
To find a place called "Home"
To find a place called "Home"
Called "Home"

We find a place that we can call our own
We seek a place that we can call our own
We find a place that we can call our own
We seek a place that we can call our own

To find a place called "Home"
Called "Home"

We find a place that we can call our own
We seek a place that we can call our own
We find a place that we can call our own
We seek a place that we can call our own
